

# **Biennial Student Activities Program Evaluation 2008**

California State University Channel Islands

Freshman Island View Orientation

Submitted to CSU Chancellor in accordance with Executive Order No. 1006.

## SECTION I:

In support of the educational mission of California State University Channel Islands (CSUCI), Student Life provides students with learning opportunities beyond the classroom which inspire intellectual, personal and civically engaged leadership for a diverse and complex world.

Student Life, from its very inception at CSUCI, has developed and promoted a cohesive and collegial environment that is conducive to the intellectual, emotional, social, physical and spiritual well-being of our students. Consistent with the mission of CSUCI our programs, services and activities in Student Life (are designed to support as well as enhance the overall quality of life for students while facilitating their development to become productive world citizens.

Our college years are often among the most profound and exhilarating times of our lives. We are excited by the prospects of trying out new ideas, making new friends, and exploring new roles. But it can also be a time of tremendous uncertainty and confusion that challenges our personal and social limits. In the area of Student Life, we view these challenges as opportunities for learning and personal development. Our offices provide programs and services that are designed not only to help students cope with college life but to prepare for the challenges of the 21st century.

Our programs and services in Student Life include: Student Leadership , Student Activities and Organizations, Career Development, Personal Counseling/Student Health Services, Disability Resource Programs, Multicultural Programs, New Student, Orientation and Transition Programs, Student Success Programs, (i.e. University Outreach, Educational Opportunity Program (EOP) and Educational Talent Search – ETS), Judicial Affairs and the Office of the Dean of Students.

The services which are offered in Student Life promote growth and development through quality co-curricular and collaborative programs which support the educational mission of the University. These collaborative programs and services are as follows:

- Associated Students Inc. (ASI) (Student Government, Student Programming Board, The *CI View* student newspaper and *The Nautical* yearbook)
- Be A Part from the Start
- Campus Interfaith
- Career Development Services
- Clubs and Organizations
- Disability Resource Programs
- Student Success Programs
- Educational Opportunity Program
- Educational Talent Search
- Housing and Residential Education
- Judicial Affairs
- New Student Orientation and Transition Programs
- Personal Counseling Services and Student Health Services
- Student Leadership
- The Hub
- Athletics and Campus Recreation
- University Outreach
- Multicultural Programs

## **SECTION: II NEW STUDENT, ORIENTATION AND TRANSITION PROGRAMS**

### **ACCOMPLISHMENTS**

- Restructured orientation to expand to New Student, Orientation and Transition Programs which represents three distinct programmatic elements: Island View Orientation, the New Student Center and Transition Programs
- Implemented several new programs and initiatives as outlined in each of the three program areas
- Coordinator served as lecturer of Group Communication (COMM220)
- Coordinator worked with “Access Denied?” taskforce to organize the bus trip to Sacramento in support of the March for Higher Education
- Completed four stateside budget workbook submissions and one ASI submission for the 2008-2009 budget cycle. The workbooks contain a total of 21 event/strategy workbooks and nine strategy detail forms.
- Revised orientation Web site to represent all elements of New Student, Orientation and Transition Programs
- Presented four posters at the President’s Annual Celebration of Excellence: New Student, Orientation and Transition Programs; Island View Orientation; Transition Programs; and the New Student Center
- Conducted the “CSUCI Transition Study of First-Time Freshmen and Transfer Students” with the assistance of CLU graduate interns.
- Hired New Student, Orientation and Transition Programs assistant, which allowed for many additional accomplishments
- Assisted with the implementation of Sexual Assault Awareness Week and the Annual Career and Internship Fair and with Disability Resource Programs testing
- Collaborated with 37 on- and off -campus entities to implement orientation
- Collaborated with 71 on- and off-campus individuals to implement orientation
- Created learning outcomes for students, guests and student leaders
- Implemented second annual orientation staff spring training to introduce orientation leaders to the theoretical constructs of orientation
- Developed a communication plan that achieved consistent and detailed communication with orientation partners
- Orientation staff participated in and supported Discover CI
- Added new elements to the freshman orientation experience including Spirit Yells, the “Welcome to CI” performances, and Dimensional Color Groups with increased time for peer-to-peer interaction
- Added new sessions to freshman orientation including “Would You Like to Approve This Comment?,” “Planning For Your Career,” and “Concurrent Networking Sessions”
- Added new sessions for freshman guests including: “Campus Safety Panel,” “Letting Go and Letting Grow,” “So What Now? Filling The Empty Nest,” and “Parent Panel”

- Implemented online Pre-Orientation Homework as a cost-effective way to communicate expectations of students prior to orientation as well as to share information about CSUCI's mission and Dimensions of Development
- Hired first returning Orientation Leaders at CSUCI that attended the National Orientation Director's Association Regional Conference in Anaheim, CA
- One professional staff person presented at the National Orientation Director's Association National Conference in Dallas, TX
- One professional staff person presented and three student orientation leaders presented at the National Orientation Director's Association Regional Conference in Anaheim, CA
- The average cumulative GPA of the 2007 orientation staff was 3.335 (12 student leaders) with 3.949 as the highest GPA earned by an orientation staff member
- Established orientation staff traditions including the Starfish Story, Starfish Award, and Making A Difference (MAD) Game Day Speech Staff
- Of the 21 areas listed on the satisfaction section of the freshman student evaluation, all but two (Scavenger Hunt and University Marketplace) were rated as excellent and one, Orientation Staff, was listed as superior
- Of the 15 areas listed on the learning outcomes-based section of the freshman student evaluation, the majority of students achieved all but two of the learning outcomes
- 92% of freshmen student respondents felt that their expectations of orientation were either met or exceeded; 80.4% indicated their expectations were exceeded
- As a result of attending freshman orientation, students' confidence that they will attend CSUCI in the fall increased by 16.6%
- On the qualitative response section of the freshmen orientation evaluation, students reported that the following were the most helpful during orientation advising: schedule building, financial aid overview, all sessions, Dimension Color Group meetings
- On the qualitative response section of the freshmen orientation evaluation, students reported that the following were the least helpful during orientation: "none – all were helpful," "financial aid," "planning your career," "would you like to approve this comment"
- On the qualitative response section of the freshmen orientation evaluation, students reported that they felt the following sessions should be removed: "none," "too many lectures"
- On the qualitative response section of the freshmen orientation evaluation, students made the following recommendations to be added to Island View Orientation: "none," "more free time, mingle time and breaks," "more activities," "full tour"
- 81% of Mid-Year Orientation student respondents felt that their expectations of orientation were either moderately met, met or exceeded
- As a result of attending the Mid-Year Orientation, students' confidence that they will attend CSUCI in the fall increased by 37.5%
- Of the 10 sessions evaluated in the Mid-Year Orientation evaluation, four sessions were most often rated as at least somewhat helpful and six were rated as very helpful; the orientation overall was rated as very helpful
- The following table further illustrates accomplishments in service-related data:

- Opened New Student Center during fall 2007 which has already been identified by first-year students as a place to get assistance with questions, gather information and meet with peers. The attendance patterns of the New Student Center are reflected in the following chart:

<b><i>New Student Center Visits<sup>78</sup></i></b>	
Total	1,570
Average daily	17
Average monthly	182

- Initiated the “Wall of Achievement” in the center to recognize the achievements of first- year students
- Initiated and provided weekly “What’s Up This Week?” schedule of events for center visitors
- Initiated promotional campaign of distributing fresh baked cookies at 11 a.m. and 7 p.m. to attract new students to the center
- The average cumulative GPA of the fall peer mentor staff was 3.38 with 3.902 as the highest GPA earned by a peer mentor
- Hired and trained peer mentors to serve as guides through students first year journey
- Peer Mentors held “Dolphin-to-Dolphin,” or one-on-one, meetings with freshman students to discuss goal setting, transition concerns and answer questions. The Dolphin-to-Dolphin meeting quantities are reflected in the following chart:

<sup>7</sup> Visits occurred from October 2007 through May 2008

<sup>8</sup> NSC visitor data including gender, purpose for visit, and time of visit, was not collected during 2007-2008. This data will be collected beginning fall 2008.

Students who stated they possibly feel a stronger sense of community over the weekend when block parties are held	232	41%
Students who felt block parties should be held once a month	291	52%

## CHALLENGES

- Supporting the addition of new programmatic elements while maintaining the level of excellence in work completed
- Determining the roles of the director and coordinator in implementing NSOTP programs
- The balance of encouraging professional staff to pursue advanced degrees in contrast with the demanding needs of the workplace
- Professional staff changes occurred just before 2007 orientation which resulted in a steep learning curve for the new coordinator
- Staffing time challenges as the coordinator’s role transitioned from leadership to orientation
- Extended delay in convening the orientation steering committee which limited campus collaborations
- Transition period from previous Dean and changes of directorship
- Meeting the expectations of all constituents
- Working with limited time to accomplish all outcomes during two-day orientation
- Meeting the needs of transfer students as they express confusion with the purpose of transfer orientation and Advising Workshops

<sup>13</sup> Block parties were held on September 14, October 12, November 9, February 8, and March 7.

<sup>14</sup> Surveys were administered at three block parties through the use of individual interviews and questionnaires.

- Delayed opening and move of the center
- Delayed delivery of furniture for the center
- Facilitating the center within the guidelines of Housing and Residential Education needs, with particular regard to the fact that the center was accessible to residents at any time
- Attracting commuting students to the New Student Center located within an on-campus residential complex
- Be a Part From the Start event schedule is dependent upon and guided by the information received from a large variety of campus entities
- Recruitment of volunteers for Ask Me Campaign as a new initiative
- Funding support for food at Welcome Celebration

## SECTION III: FRESHMAN ISLAND VIEW ORIENTATION

### CONCEPT

*Describe how the program was created or what served as the catalyst for the idea.*

#### Overview

Based in the theoretical foundations of Vincent Tinto’s Theory of Departure (1975) and Alexander Astin’s Theory of Student Involvement (1984) and Input-Environment-Output Model (1993), Freshman Island View Orientation (FIVO) is designed to prepare first-time college students for a successful transition to university life at California State University Channel Islands. Island View Orientation is one of the three programs administered by New Student, Orientation and Transition Programs (NSOTP). Further, FIVO is designed to achieve the following aims that are strategically linked to the goals of the Division of Student Affairs (as illustrated below):

1. To facilitate a successful academic transition into CSUCI by providing students with academic resources (DSA 1, 2, 3)
2. To assist with a successful social transition into CSUCI by providing students with resources for personal and co-curricular development (DSA 1, 2, 3)
3. To develop school spirit by welcome students to the campus community (DSA 2)

Freshman Island View Orientation is a two-day, overnight program held during the month of July. All incoming freshman students must attend both days of the orientation and stay overnight in our on-campus student housing. The on-campus overnight requirement illustrates the University’s commitment to placing students at the center of their educational experience as it provides all students with the opportunity to connect with the campus, their peers, and University personnel. Parents and guests are also invited to attend the concurrent guest orientation with their student and may also stay on-campus.

#### Curriculum

In the spring of 2007, the curriculum of FIVO underwent a review and revision process to ensure the FIVO schedule emphasizes student learning. Learning outcomes guided the development of the curriculum/agenda for student and guest orientation (Appendix A). Learning outcomes were developed as a result of needs assessment in consultation with best practices, student development theory and feedback from the campus community including faculty. Further, a learning outcomes matrix (fig. 1) and assessment plan was developed illustrating the manner each outcome supports CAS Standards, program aims and the method of assessment. Learning outcomes are shared with each constituent group (students and guests) as a component of each session summary provided with the orientation schedule in an effort to ensure that all participants are active learners and to illustrate our commitment to building their knowledge base (Appendix B).

## **Integration of New Elements**

The Division of Student Affairs at California State University Channel Islands is committed to ongoing and continuous improvement as well as to providing programs and services that are relevant and meaningful to the student experience. As such, several new elements have been integrated into the Freshman Island View Orientation program as described below.

### ***Dimensional Color Groups***

Astin's (1993) longitudinal study that resulted in the development of the Input-Environment-Output Model found that the peer group is the most powerful influence on growth and development during the undergraduate years. The results of this study informed the small-group format of Freshman Island View Orientation. Since it began in 2002, FIVO allowed for students to be placed in groups of 15-20 with an assigned Orientation Leader to facilitate small group interaction and dialogue during break-out sessions. In the Summer of 2007, the number of groups increased to nine and were called Dimensional Color Groups (DCGs) in order to represent each of the Division's nine Dimensions of Development. This change resulted in a decrease of group size to 10-15 as well as the opportunity to teach students about the nine areas of which the Division hopes they develop prior to graduation from CSUCI as well as the four mission pillars of the University. Also, the number of DCG break-out sessions was increased from two to three.

### ***School Spirit***

Though intercollegiate athletics are now on the horizon at CSUCI, FIVO has established the importance of and ability to inspire school spirit during orientation as a method for welcoming new students and their families to the Dolphin Family. Strategies used to share "CI Pride" include a rap performance of a song called "Welcome to CI" written and performed by current students, a Spirit Dinner featuring a Spirit Yell Competition among the Dimensional Color Groups, and a Traditions Fashion show that features Orientation Leaders dressed up to represent CI traditions. Additionally, beginning 2008 a Closing Ceremony was held during lunch of day two and featured a student speaker and parent speaker that addressed the group and shared their thoughts and feelings regarding their transition to the CSUCI community.

### ***New Sessions for Students & Guests***

In order to achieve the learning outcomes designated for the program as well as to ensure sessions provided are relevant to current events, several new sessions have been incorporated into the student and guest orientation schedules.

New sessions for guests include:

- "Campus Safety Panel" – created as a result of national incidents on college campuses and designed to teach orientation guests the initiatives CSUCI employs to foster a safe campus environment?
- "Letting Go and Letting Grow" – a parent workshop created as a result of research on the parents of Millennial students and designed to teach parents about challenges and issues that parents and students might encounter during the first year of college.
- "So What Now? Filling The Empty Nest" - created as a result of research on the parents of Millennial students and designed to teach the challenges associated with the college transition and provide parents tools to make it an experience that is enjoyable for them. During this session, parents learn how to set the next stage for the rest of their lives.
- "Tour of Broome Library" – provided guest with an opportunity to tour the new state-of-the-art facility on campus.
- "Parent Round Table Discussion" – created to serve as an initial needs assessment for future parent program initiatives, the parent round table discussion provides parents with ways to get involved at CSUCI and share their ideas for serving their needs and making new friends. The session was a collaboration between New Student, Orientation and Transition Programs and Alumni & Friends.

New sessions for students include:

- “Would You Like to Approve This Comment?” – created as a result of the impact technology plays in the lives of today’s college students, this session provides students with tips on making positive decisions in a technological world.
- “Involvement Exhibition” – this session asks students to “Don’t just go through college - let college go though you!” and provides a chance to meet individual with individuals on campus that share involvement opportunities.
- “Take VII Skits” – this session gives orientation staff the opportunity to display their acting skills in an entertaining skit while presenting transition related issues and stereotypical characters that first year students might encounter when entering college.
- “Concurrent Networking Sessions” – created as a result of reviewing literature on orienting students from diverse populations, this session provides students with the chance to network with their peers and receive information from Disability Resource Programs, the Multicultural and Women’s & Gender Student Center and a campus representative discussing commuting student issues.

### **Student Leadership Development**

A strong student leadership team, the Orientation Staff, has always been an integral component of the FIVO experience. The Orientation Staff is comprised of nine Orientation Leaders and one Senior Orientation Leader that serves in a supervisory capacity for the Orientation Leaders. The orientation staff experience begins with meeting prospective students at a University open house event called “Discover CI,” progresses through summer orientations and ends with the Welcome Celebration and Ask Me Campaign events held early in the fall. Learning outcomes were developed for the Orientation Leader position to establish the targeted growth and development to occur as a result of taking part in the experience (Appendix A). Training for orientation leaders takes place in both the Spring and Summer; focusing on the purpose of orientation and introduction to student development in the Spring and the tactile skills of the position during the summer. The “motto” of the Orientation Staff is the “Making a Difference” Starfish Story that illustrates the importance of making a difference in the life of just one person. The average cumulative GPA of the 2007 orientation staff was 3.335 with 3.949 as the highest GPA earned by an orientation staff member.

Orientation Leaders have established a very position reputation at CSUCI, several have gone on to serve as Student Government Presidents and other leadership roles within the institution. CSUCI Orientation Leaders have also represented the institution at the National Orientation Director’s Association Regional Conference in Spring 2008. Orientation Leaders were selected to present three sessions during the conference in Anaheim, California, “Tips and Tools for First Time Leaders,” “Would You Like To Approve This Comment” and “Spirit Without Sports.”

## PLANNING

*Discuss the individuals, departments and/or divisions involved in the planning; what resources were needed for implementation; how the resources were obtained; discuss any cost-sharing efforts.*

Virtually the entire campus community collaborates to ensure the success of Freshman Island View Orientation. At last count, orientation staff members work with over 71 individuals representing 31 different programs, services or entities on campus to implement FIVO. Much of this work has been completed via one-on-one meetings following a communication plan developed to ensure the needs of the campus are being met. The plan assigns orientation staff members to serve as liaisons with various campus constituents and delineates a process and timeline whereby introductory meetings are held to discuss feedback for program development, individualized follow up from orientation staff regarding the status of recommendations and final personal phone call one week prior to FIVO to ensure constituent's questions and concerns are addressed. Finally, a FIVO Overview Session was advertised and provided to the entire campus community to serve as a "run-through" prior to the start of the program.

Campus constituents also take part in the implementation of sessions informally and formally during orientation. Informally, Student Life staff members volunteer to assist with check-in and key Division of Student Affairs administrators including the Vice President of Student Affairs serve as judges in the Spirit Yell Competition during the Spirit Dinner. In formal manner, campus constituents take part in the University Marketplace that provides attendees with the opportunity to meeting campus representatives from a variety of campus services, programs, departments as well as student clubs and organizations. Also, an "Involvement Exhibition" was implemented in summer 2008 to provide a specific time for sharing campus involvement opportunities with incoming students.

### *Cost-sharing Efforts*

Several cost-effective and mutually beneficial collaborations have also been employed in order to make the best use of available resources: Alumni & Friends sponsors a wine and cheese social for parents during FIVO, the Student Programming Board sponsored a DJ and co-hosted the evening student social and the Camarillo Chamber of Commerce provide orientation bags for all attendees.

## IMPLEMENTATION

*Discuss the resources used (e.g., staffing, facilities, budget, etc.); scheduling considerations; target audience, number of participants.*

Freshman Island View Orientation is primarily funded by mandatory orientation fees for students and guests. Staff salaries and other operational expenses remain dependent upon stateside funding. New Student, Orientation and Transition Programs has two full-time professional staff, a coordinator and assistant and is supervised by the Director of Access, Orientation and Transition Programs in Student Life. Eleven students, one Senior Orientation Leader, nine Orientation Leaders and one student assistant comprise the orientation team and effectively implement most administrative duties of the program. Food and on-campus housing are the primary fees associated with the event. Island View Orientation is designated as one of the few campus-wide events and as such does not require NSOTP to pay fees associated with set up, parking, classroom use, etc. Scheduling the use of facilities must be done as early as possible to mitigate conflicts with summer conference facility usage. Over the last two years, approximately 540 students and 300 guests attended FIVO however much more are expected in the years to come based on the institution's strategic plan.

### *Reduction of Costs*

In addition to the collaborations described above, orientation staff have sought creative solutions for reducing costs. Beginning in Fall of 2007, increased use of technology and the internet has reduced staff hours for administering hard copy documents as well as fees associated with office supplies, duplication and postage; all registration for FIVO takes place online and an online Pre-Orientation Homework that provides students with all of the necessary information they need in order to be prepared for orientation saves New Student, Orientation and Transition Programs, Academic Advising and Enrollment Services resources as they all contribute material to the homework. The Pre-Orientation Homework also gives Orientation Leaders a chance to get to know their student mentees through the review of their open-ended question responses asked on one of the homework steps. Utilizing technology also allowed for orientation staff to play a more significant role in the administration of logistical tasks through Project Management (Appendix G).

Other cost reduction techniques have been implemented as a creative way to achieve multiple outcomes. To illustrate the University's commitment to sustainability, plastic water bottles for each participant were distributed at check-in in lieu of disposable water bottles at each meal. The water bottles were branded with the New Student Center phone, which provided additional marketing of the Center to incoming students. To decrease food costs and promote healthy living, food on day two of orientation was low calorie and low fat. Both changes together reduced costs by \$12,000. Finally, as a fundraiser to send Orientation Leaders to the NODA conference in 2009, optional Dolphin Spirit items were sold to incoming students and parents upon registration for FIVO including Dolphin Spirit Packs that will be delivered during the first week of class, Class of 2012 t-shirts and Proud Parent t-shirts.

## ASSESSMENT

***Describe the assessment plan that includes learning outcomes, types of data needed, and assessment instruments utilized.***

A thorough evaluation of both satisfaction related data and learning-outcomes based data is included in the Island View Orientation Evaluation (Appendix C). This provides staff with the opportunity to determine attendee perceptions regarding the effectiveness and value of various elements of the program and also to assess the degree to which learning outcomes were achieved. Results of the 2007 student FIVO evaluation are provided in (Appendix D) and a few key findings are illustrated below:

### *Demonstration of Learning Outcomes*

- 82.6% of students were able to identify the CSUCI mission after attending orientation
- 92% of students stated that their expectations were either met or exceeded at orientation
- 80.4% of students stated that their expectations were exceeded at orientation
- 73.3% of students were able to correctly identify the nine Dimensions of Development
- 72.7% of students knew both the color and name of their dimensional color group

### *Satisfaction Results:*

- Orientation staff were the only item rated superior
- Many components of the evaluation received excellent ratings including School Spirit, Orientation Overall, Student Social and Overnight Stay in Housing

Perhaps the most powerful is the fact that as a result of attending the 2007 orientation, student's confidence that they will attend CSUCI in the Fall increased by 16.6%. Early analysis of the satisfaction elements of the FIVO 2008 evaluation reflect similar findings.

In the summer of 2008, focus groups were conducted by an intern from California Lutheran University in order to triangulate findings from the orientation evaluation and provide immediate feedback to enact changes for the next orientation session.

To further illustrate CSUCI's commitment to student development, student orientation staff is evaluated at both the middle and end of the summer to allow time for immediate improvement before completing the experience. Peer and supervisor comments are compiled along with results from the Team Member Rubric (Appendix E) and discussed with students along with action strategies for improvement.

## RECOMMENDATIONS

*Based on the assessment data, discuss the recommendation(s) to improve the overall program (e.g., program quality, student experience, learning outcomes, etc.).*

*As a result of reviewing the findings from the 2008 evaluation, recommendations for improving the program are as follows:*

- Decrease the quantity of learning outcomes. Students possibly experienced fatigue with completing the evaluation and thus responded less to the
- Include demographic data in 2008 evaluation for more expansive query options.
- Utilize a rubric for direct measure of learning and degree to which learning took place
- Determine additional strategies for introducing Academic Advisors to students as only 29% of students were able to identify the name of an academic advisor
- Determine additional strategies for teaching the location of the Career Center with students as only 59% of students knew the correct location
- Determine additional strategies for teaching the add/drop deadline as only 67.8% of students knew the deadline
- Avoid asking double-barreled questions to provide for improved statistical analysis
- Conduct focus groups to better understand the reasons why the University Marketplace was rated low by students on quantitative measures
- Ensure the validity of all questions on the evaluation so that they are actually measure learning outcomes that they are designated to measure

### *Other recommendations:*

- Establish orientation dates as soon as possible in the academic year
- Evaluate process for FIVO scholarships and/or waivers to outreach to students from low socioeconomic status
- Develop an online Post Orientation Homework to inform students of recommended tasks to be completed after orientation before beginning school in the fall
- Establish deadlines for orientation registration early and publish the information as widely as possible
- Develop and publicize among campus constituents a small number of program goals/aims that can be easily recalled and identified. This assists others to understand the role they play in making FIVO successful.

## SUSTAINABILITY

*Discuss the department's interest to sustain the program and how it has been successful in doing so.*

### *Island View Orientation as the Initial Program for Students in Transition*

Island View Orientation has become just one of many programs designed to integrate students into the University environment. Beginning Fall 2007, a program called New Student, Orientation and Transition Programs was created to serve as an umbrella for three primary initiatives designed for new students; these initiatives include Island View Orientation, the New Student Center and Transition Programs. According to Upcraft & Gardner (1989), the longer the first-year student has to become familiar with the university, the more likely he/she will stay through the first-year of college. Thus, the transition is viewed as one that extends beyond a two-day event to several initiatives that take place during the first year. Island View Orientation is the initial program provided to students to assist with their transition making it an integral element of the fabric of our institution.

The New Student Center (NSC) provides a welcoming location for new students to gather, connect with each other and peer mentors (former Orientation Leaders) and receive information about campus services and programs. The NSC is staffed by trained Peer Mentors who seek to make both individual connections with students as well as facilitate small group interaction. Peer Mentors plan social events to attract students into the NSC, facilitate a connection between themselves and their mentors and facilitate peer group interaction. Peer Mentors also plan curricular events such as speech practice sessions and group study sessions to assist with the transition into CI's academic life. Peer Mentors also hold Dolphin-to-Dolphin meetings to discuss goal setting, transition concerns, and answer questions. Dolphin-to-Dolphin discussions were held by Peer Mentors at the end of the fall semester to discuss fall and spring goals. Peer Mentors plan and facilitate social and academic events throughout the fall and spring semesters. Peer Mentors also implement the Personal Academic Record (P.A.R.) Card program. First-year students are invited to pick up a P.A.R. card during the first three weeks of school from the NSC and document their target grade point average (must be above average). The NSC will maintain a record of the goals and will recognize students who achieved P.A.R. upon completion of the first semester.

Transition Programs consist of a series of large and small scale events designed to assist with a student's transition into the University. Transition Programs includes the monthly block parties, the Welcome Celebration, the Ask Me Campaign and Be a Part From the Start. Block Parties are designed to support University retention efforts, develop a weekend campus culture by providing weekend programming, and have already established themselves as a tradition at CSUCI. The Block Party committee is guided and inspired by the objectives of strengthening the sense of campus community over the weekend; increasing the number of students staying on campus over the weekend; creating a tradition that provides for cross-campus collaboration; providing a fun, safe, and healthy weekend program; and increasing involvement in campus activities. The annual Welcome Celebration is an opportunity for the campus community, incoming students and their families to unite in celebrating the start of the academic year. This event continues to be a highlight each year. Approximately 3,000 attend and enjoy a variety of family activities, food and entertainment. The Ask Me Campaign provides a concierge-type booth staffed by campus volunteers during the first few days of the fall semester to respond to informational and directional inquiries of students. "Be A Part From the Start" is a 10-week campus-wide student retention program that consists of activities and events designed to help students engage in the University from the moment they arrive at CI. "Be a Part From the Start" provides a unified effort in welcoming students to CSUCI, opportunities for students to connect with CSUCI, opportunities for students to connect with other students and enhances students' knowledge of the nine Dimensions of Development through participation in activities and events.

## Planning Guides & Cross Training

A comprehensive planning guide that illustrates timelines and staff work flow (figure 2) has been developed in order to assist with the sustainability of the program. All processes, procedures and documents used to implement orientation have been placed in planning binders and on a shared drive available to future staff members. Additionally, professional and student staff have been cross-trained in many of the procedures and responsibilities of implementing the program.

## Successive Model of Student Leadership

Over the last few years, a successive model of student leadership has been created to ensure the sustainability of the spirit, traditions and quality of the orientation staff. A Senior Orientation Leader position was created to provide an opportunity for an Orientation Leader to further develop their leadership development. Beginning Summer 2008, new students have been recruited to serve as Orientation Interns (a volunteer position). During the fall semester, Orientation Interns will meet with professional staff and peer mentor and assist with the implementation of New Student, Orientation and Transition Program events. Their experience will culminate in assisting with the Mid-Year Orientation and an opportunity to apply for the Orientation Leader position.

## Campus-Wide Collaboration

Island View Orientation is sustained through the collaboration of many constituents from the campus community. Plans are underway to develop several planning teams to ensure such collaboration takes place in the future. See Appendix F for the most current draft of orientation planning teams.

## Assessment

Perhaps the key ingredient to sustaining the quality, integrity of the orientation program at CSUCI is administrator and staff commitment to keeping students at the center of the educational experience, continuing and ongoing improvement through assessment as well as the pursuit of excellence.

## REPLICATION

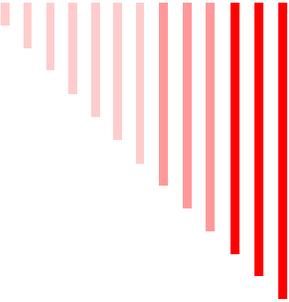

*Discuss the issues a campus should consider if contemplating replicating the program.*

- Prior to establishing and revising the Island View Orientation program, a great deal of time was devoted to becoming familiar with applicable student development theories and current best practices for orientation. Though it is often difficult to find the time to stay current on literature, it is highly recommended.
- Be active at developing and maintaining collaborative working relationship with multiple constituents on campus.
- Educate the campus community with regard the role they play in orientation so that all may see how it relates to their own purpose and objectives. Avoid giving the perspective that orientation “belongs” to one area.
- Utilize creativity with garnering and expending resources and consider the role technology may play in assisting with program revision and cost cutting.
- Develop an evaluation that specifically addresses both satisfaction related queries as well as evaluates student learning outcomes. Provide an incentive for attendees to complete the evaluation of orientation.
- Empower student staff with administering some of the logistics of the program and by making them Project Managers of various tasks (Appendix G).

# NEW STUDENT, ORIENTATION AND TRANSITION PROGRAMS

## CALIFORNIA STATE UNIVERSITY CHANNEL ISLANDS

### PROGRAM AIMS AND OUTCOMES

## CSUCI MISSION

Placing students at the center of the educational experience, California State University Channel Islands provides undergraduate and graduate education that facilitates learning within and across disciplines through integrative approaches, emphasizes experiential and service learning, and graduates students with multicultural and international perspectives.

## MISSION PILLARS

CSUCI has identified four pillars that conceptualize the essence of the experiences and characteristics that a CSUCI graduate should possess.

- **Integrative Approaches (IAP)**
- **Experiential and Service Learning (ESLP)**
- **Multicultural Perspectives (MPP)**
- **International Perspectives (IPP)**

## DIVISION OF STUDENT AFFAIRS MISSION

Placing students at the center of *their* educational experience, the Division of Student Affairs supports and enhances learning and the University community through quality activities, facilities, programs and services.

## DIVISION OF STUDENT AFFAIRS STRATEGIC GOALS

1. To recruit, enroll, retain and graduate a diverse student body at both the undergraduate and graduate levels.
2. To encourage a learning community in and beyond the classroom that promotes academic excellence and personal development of students. Leadership participation and community involvement will be emphasized. Understanding and appreciating diversity will be embraced in order to prepare students for life after the university experience.
3. To offer programs and services for students that enhances their quality of life at CSUCI. In addition, the Division of Student Affairs will offer programs and services that foster positive relationships between members of the campus and surrounding communities.
4. To prepare students for life-long learning and ongoing personal development; provide opportunities for the learning and development of the whole person; and to continually evaluate and improve the quality of programs and services offered to students.

## NSOTP THEORETICAL FOUNDATION

Why is the first year so crucial and why dedicate funding specifically to new students and students in transition? Fifty-six percent of all students that drop out of universities leave even before starting the second year (American College Testing, 1994). National statistics further indicate that 30 percent of first-year students do not return to the second year (ACT, 2007). Charged with proactively retaining CI students, New Student, Orientation and Transition Programs (NSOTP) provides programs and services that assist students with their social and academic transition into the University. NSOTP programs extend beyond a single overnight summer orientation and extend to a holistic program that lasts throughout the duration of the first year. By increasing the time the first-year student has to become familiar with the University, we enhance the possibility that students will stay through the first-year of college (Upcraft & Gardner, 1989). Further, when developing and implementing programs, NSOTP places particular emphasis on programming within the first 10 weeks of the fall semester with the understanding that "...the impact of involvement upon persistence is greatest in the first year, especially during the first 10 weeks when the transition to college is not yet complete and

personal affiliations are not yet cemented” (Tinto, 1998, p. 1).

Program development within NSOTP is also informed by Tinto’s (1975) theory of departure, one of the most significant in the studies of student attrition. The theory of departure focuses on the student’s ability to integrate into the institution’s intellectual and social communities. The model contends that the student’s integration into the social and intellectual communities of the institution impacts the continued revision of the student’s goals and commitments. Positive integration will raise a student’s commitment to goals and the institution while lower levels of integration contribute to a greater likelihood of departure. NSOTP has developed programs that address the needs associated with a student’s *academic and social transition* to CSUCI.

## NSOTP PURPOSE

New Student, Orientation and Transition Programs supports University recruitment and retention initiatives by coordinating events, activities and services that integrate new students holistically (socially and academically) into the CSUCI community. NSOTP consists of three programmatic elements: **Island View Orientation, the New Student Center and Transition Programs.**

## NSOTP AIMS

- Provide events and activities that supplement the student's curricular education and assist with the student's transition into CSUCI **(DSA1, DSA2, DSA3)**
- Provide opportunities for new students to connect with faculty and staff **(DSA2)**
- Increase the time new students spend on campus **(DSA1, DSA2, DSA3)**
- Provide a welcoming environment for new students to gather, connect with each other and campus services/programs **(DSA1, DSA2, DSA3)**
- Increase CSUCI’s first-year to second-year retention rate **(DSA1)**
- Motivate new students to achieve curricular and co-curricular outcomes upon the completion of their first year **(DSA2)**
- Provide the support and stimulation of a learning community of peers **(DSA2, DSA3)**
- Ensure programs and services are suitable for our diverse student population **(DSA1)**
- To facilitate a successful academic transition into CSUCI by providing students with academic resources **(DSA 1, 2, 3)**
- To assist with a successful social transition into CSUCI by providing students with resources for personal and co-curricular development **(DSA 1, 2, 3)**
- To develop school spirit by welcoming students to the campus community **(DSA 2)**

## ISLAND VIEW ORIENTATION

### PURPOSE

The purpose of Island View Orientation is to prepare first-time college students and transfer students for a successful transition to university life at California State University Channel Islands.

### AIMS

- AIM 1:** To facilitate a successful academic transition into CSUCI by providing students with academic resources **(DSA 1, 2, 3)**
- AIM 2:** To assist with a successful social transition into CSUCI by providing students with resources for personal and co-curricular development **(DSA 1, 2, 3)**
- AIM 3:** To develop school spirit by welcoming students to the campus community **(DSA 2)**

## FRESHMAN ISLAND VIEW ORIENTATION (FIVO) OUTCOMES

**AIM 1:** To facilitate a successful academic transition into CSUCI by providing students with academic resources **(DSA 1, 2, 3)**

### Learning Outcomes

As a result of attending orientation, students will be able to:

- *Identify the time length permitted for adding and dropping classes<sup>15</sup>*
- *List the name of the site utilized for class registration*
- *Identify format of CSUCI user ID/dolphin email address*
- *Identify General Catalog as location for general education and major requirements*
- Explain the class scheduling process
- Identify the name of one faculty person

- Summarize CSUCI's Academic Core Values
- Identify the tools for excelling in the University classroom
- Discuss the transitions and changes associated with the collegiate academic experience

### **Program Outcomes**

During orientation, students will:

- Receive fee payment deadlines and pay fees
- Register for classes
- Build their Fall schedule in consultation with a peer mentor and Academic Advisor
- Select an English class that satisfies University requirements
- Have their schedule checked by an Academic Advisor before registering
- Select a Math class that satisfies University requirements
- Access and learn how to use their Dolphin e-mail account
- Receive a CSUCI Student ID card
- Receive a clear written summary of general education requirements

**AIM 2:** To assist with a successful social transition into CSUCI by providing students with resources for personal and co-curricular development (DSA 1, 2, 3)

### **Learning Outcomes**

As a result of attending orientation, students will be able to:

- *State name of two Orientation Leaders*
- *State major of two Orientation Leaders*
- *State name of an Academic Advisor*
- *List the name of two peers that the students were acquainted with during orientation*
- *List 3-5 co-curricular involvement opportunities on campus*
- *Locate Student Health Center on campus map*
- *Locate Career Center on a campus map*
- *Identify location for obtaining ID card, requesting transcript and paying fees*
- Identify the services offered by the Career Center
- Summarize CSUCI's judicial affairs policies
- Discuss the transitions and changes associated with the collegiate social experience
- Identify proper life choices with regard to alcohol and drug prevention
- Identify the issues students can face when utilizing a social networking site
- List things to consider when signing up for a credit card

### **Program Outcomes**

During orientation, students will:

- Receive a written listing of critical phone numbers, offices, e-mail addresses, and web sites that they may need for answers to questions that arise before the start of school and after school begins
- See samples of Co-Curricular Portfolios
- Receive a campus tour that highlights points of interest associated with student services and co-curricular involvement opportunities
- Have the opportunity to visit University representatives and receive personalized information
- Be divided into small groups, purposefully designed for maximum interaction, named after the Dimensions of Development
- Participate in social activities designed to acquaint students with their peers
- Students from underrepresented populations will have the opportunity to network with each other
- Stay overnight in the University residents hall
- Receive at least one free CSUCI t-shirt
- Receive an optional introduction to the Financial Aid process
- Be provided with information regarding the availability and process for locating on and off campus housing
- Be provided time to visit campus resources

### **AIM 3: To develop school spirit by welcoming students to the campus community (DSA 2)**

#### **Learning Outcomes**

- Identify the opening of the University's mission statement
- Identify CSUCI colors
- Describe significance of CSUCI colors
- Identify Dimensions of Development
- Identify the four pillars
- Express that they feel welcome to the CSUCI community
- List CSUCI traditions

#### **Program Outcomes**

During orientation, students will:

- Be informed of the purpose of higher education
- Participate in a Spirit Yell competition
- Be introduced to the we "Welcome to CI" rap and be invited to sing the lyrics
- Have the option to participate in the CIRP survey

## **GUEST ORIENTATION OUTCOMES**

### **OBJECTIVE 1: To facilitate a successful academic transition into CSUCI by providing students with academic resources (DSA 1, 2, 3)**

#### **Learning Outcomes**

- Summarize their role as a student academic supporter
- Describe the role of faculty at the institution
- Discuss the complex transitions and changes associated with the collegiate academic experience as it relates to parents

#### **Program Outcomes**

- Given fee payment deadlines

### **OBJECTIVE 2: To assist with a successful social transition into CSUCI by providing students with resources for personal and co-curricular development (DSA 1, 2, 3)**

#### **Learning Outcomes**

- Describe the role of staff at the institution
- Identify the characteristics of a Millennial and Helicopter Parent
- Recognize issues students may face in the areas of personal health, safety and security (including credit card and online social networking education) during the first year of college
- State CSUCI's academic expectations
- Discuss the complex transitions and changes associated with the collegiate social experience
- Discuss the complex transitions and changes associated with the parent experience while their child is going to college
- Express that they feel connected and welcome to the CSUCI community
- Identify the importance of students planning coursework and co-curricular activities in order to accomplish their (career) goals
- List co-curricular involvement opportunities
- Determine the location of classrooms, support services and co-curricular venue locations on campus
- Identify CSUCI's core values, judicial affairs policies, FERPA and academic integrity policy
- Identify which office or individual should be contacted for specific questions - Financial Aid, Academic Advisors, Public Safety/Parking, and Student Life
- Describe campus safety operations and precautions

#### **Program Outcomes**

- Provided with information regarding the availability and process for locating on and off campus services
- Able to give a relaxed environment to get to know faculty and staff.
- Provided time to visit appropriate campus resources

### **OBJECTIVE 3: To develop school spirit by welcoming students to the campus community (DSA 2)**

#### **Learning Outcomes**

- Summarize the purpose of Alumni and Friends and opportunities for parental/guest involvement
- Summarize FERPA
- Describe CSUCI traditions and history
- Describe the role of philanthropy in terms of their student's education
- Summarize the academic and social benefits of CSUCI through alumni stories of success

#### **Program Outcomes**

- More involved in Advancement activities further assisting the development efforts of the University.
- student housing
- Informed of the mission of CSUCI and how it supports the purpose of higher education
- Informed of the purpose of higher education
- Able to talk with current and past parents and student mentors to get advice
- Receive important campus dates including family weekend, finals and midterms
- Able to participate in social activities designed to acquaint them with current students, faculty, staff, administration, alumni and fellow guests

## **OUTCOMES OF THE ORIENTATION STAFF EXPERIENCE**

### **At the conclusion of the Orientation Leader (OL) experience, an OL will be able to:**

- Summarize the purpose of orientation
- Demonstrate a development in at least seven of the nine Dimensions of Development based on the Dimensions of Development Rubric
- Lead a thorough campus tour (based on campus tour guidelines)
- Describe the CSUCI Mission Statement and list the four Mission Pillars
- List the nine Dimensions of Development
- Demonstrate characteristics of a positive team member as defined by the Team Member Rubric
- Organize and manage tasks efficiently
- Explain the needs of incoming students
- List characteristics of millennials
- Demonstrate school spirit and pride
- Identify and describe services that CSUCI offers to students and opportunities for involvement
- Illustrate advanced interpersonal and intrapersonal skills based on the Interpersonal/ Intrapersonal Rubric
- Design an orientation program that integrates students into the social and academic components of the institution
- Produce an effective public speech
- Possess an up-to-date Co-Curricular Portfolio
- Describe tools to appropriately work with difficult participants
- Describe a feeling of ownership of Island View Orientation (IVO)
- Describe a feeling of teamwork experienced during IVO
- Apply skills gained during the OL experience to life

# STUDENT - SESSION SUMMARIES

## DAY ONE

### University Welcome

Meet campus leaders representing Academic Affairs, Student Affairs and the Office of the President

As a result of attending this session you will be able to:

- Identify the opening of the University's mission statement
- Identify the four mission pillars
- Identify CSUCI colors
- Describe the significance of the CSUCI colors
- Identify the name of one faculty person
- Express that you feel welcomed to the CSUCI community
- Summarize the purpose of higher education

### Orientation Staff Introductions

Meet the fantastic orientation staff who will be assisting you throughout orientation

As a result of attending this session you will be able to:

- Identify the Dimensions of Development
- Express that you feel welcomed to the CSUCI community
- State the name of two orientation leaders
- State the major of two orientation leaders

### Academic and Campus Core Values

What are the expectations of you as a student and as an orientation attendee? Campus leaders from Academic Affairs and Student Affairs will share with you the core CSUCI values as well as academic and behavioral expectations.

As a result of attending this session you will be able to:

- Summarize CSUCI's Academic Core Values
- Identify the name of one faculty person
- Identify the Dimensions of Development

### Dimensional Color Group (DCG) Break-Out Session #1 – Welcome & Overview

Let's get dimensional! Every student is part of a Dimensional Color Group (DCG) representing one of the Dimensions of Development that provides you with the chance to interact with other students in a small group setting. DCGs are designed to reinforce material taught to you throughout orientation from a current student's perspective and by giving you the chance for individualized reflection and group discussion.

As a result of attending this session you will be able to:

- Identify the Dimensions of Development
- Identify the opening of the University's mission statement
- Express that you feel welcomed to the CSUCI community
- State the name of one orientation leader
- State the major of one orientation leader
- Participate in social activities designed to acquaint you with your peers
- List the names of two peers that you met during orientation
- State that you developed a sense of group spirit
- Navigate your way effectively through the two-day Island View Orientation

### Math Placement Presentation

What math class should you take? During this session, you will receive the information needed to select your first math class.

As a result of attending this session you will be able to:

- Select a math class that satisfies University requirements
- Identify the name of one faculty person

### Advising Workshops

No idea what classes to take? What's a GE? The academic advisors will provide you with the information you need to plan your class schedule.

As a result of attending this session you will be able to:

- Receive a clear written summary of general education requirements
- Explain the class scheduling process
- Identify the University Catalog as the location for general education and major requirements
- Identify the time length permitted for adding and dropping classes
- State the name of an academic advisor
- List the name of the site utilized for class registration
- Identify the format of a CSUCI user ID/Dolphin Email address

### University Marketplace & Lunch

During lunch, you will have the opportunity to meet campus representatives from a variety of campus services, programs and departments as well as student clubs and organizations. Check out the Marketplace Directory to decide who you want to talk to!

As a result of attending this session you will be able to:

- Visit University representatives and receive personalized information
- List three to five co-curricular involvement opportunities on campus

### **Academic Programs Introductions**

What academic programs are offered at CSUCI? At this session you will find out!

As a result of attending this session you will be able to:

- Identify the tools necessary for excelling in the University classroom
- Identify three to five academic programs offered at CSUCI
- Identify the name of one faculty member
- Navigate your way through the Academic Programs Showcase

### **Academic Programs Showcase**

Want to meet faculty members in your major or explore academic programs at CSUCI? Visit all three poster presentations to learn about faculty scholarship, student projects and program highlights.

As a result of attending this session you will be able to:

- Identify the tools necessary for excelling in the University classroom
- List the four pillars of the University mission
- Describe one academic program offered at CSUCI
- Identify the name of one faculty member

### **Beginning College Survey of Student Engagement (BCSSE) & “Getting Real”**

By taking this survey, you will provide us with information about you that will help ensure that we are best serving the needs of incoming students. After taking the survey, you will have the opportunity to chill out and chat with orientation leaders.

### **Involvement Exhibition**

Don't just go through college - let college go through you! It's time to get the most out of your CSUCI experience. Pick the involvement sessions that interest you most.

As a result of attending this session you will be able to:

- List three to five co-curricular involvement opportunities
- Analyze involvement opportunities and select one of interest
- Receive contact information for engaging in future on-campus involvement
- Ask questions of campus representatives regarding methods of involvement

### **DCG Break-Out Session #2 – Social Transition & Points of Interest Campus Tour**
